

Collaboration on Intelligent Integrated BMS and Security in Azerbaijan:

LONIX AND SONNAMIR TO DELIVER FULLY INTEGRATED IBMS SOLUTION TO TRAFFIC MANAGEMENT CENTER IN BAKU

The intelligent building system provider Lonix delivers integrated automation, BMS and security systems for the Traffic Management Center of Baku in Azerbaijan. The Traffic Management Center is one of the projects by Transportation Ministry of Azerbaijan. The integrated systems are implemented by Sonnamir Group, which is recognized as a respected forerunner in construction industry, combining the traditional construction methods and the creative, forefront approach to cutting edge technologies and delivery systems.

The comprehensive Lonix IBMS solution in Baku TMC combines the intelligent controls of HVAC systems with the IP based access control, video monitoring and security management solution. The integrated solution leverages the generic COBA integration platform to provide a highly sophisticated solution for the Baku Traffic Management Center. The Lonix Solution provides unparalleled interoperability not only within traditional automation and security environments, but also extends seamlessly to create a unified, intelligent building by integrating with diverse facility systems including automation and building management, lighting controls, energy management, access control, fire detection and video monitoring.

“Our collaboration with Sonnamir Group has been a significant leap forward to penetrate the market of intelligent, integrated buildings in Azerbaijan”, says Anu Kätkä, Managing Director of Lonix. “With the excellent competence of Sonnamir, we are now turning our mutual visions and combined skills into large-scale business in Azerbaijan.”

The CEO of the Sonnamir Group, Onur Nacar says, “We are very happy about the quality and solution methods of Lonix. I would like to add that we are also very thankful to all Lonix family about their trust to us. We are sure that this cooperation will achieve many successful outcomes in Azerbaijan and all CIS region.”

About Lonix

Lonix (founded 1996) is the leading supplier of integrated automation and security systems and intelligent building management systems using the COBA BOS integration platform. Lonix is active in Europe, Russia, Middle East, East Africa, South-East Asia and Far East. More info: www.lonix.com

About COBA

COBA Building Operating System (BOS) is a generic software platform for integration and interoperability of all building systems. Standard based COBA BOS Framework definitions form the foundation of the platform. More info: www.coba-group.com
